## Email Communications through Constant Contact

The Virginia Synod uses Constant Contact to manage and send emails from the Office of the Bishop and Synod Publications. Depending on your email settings and/or the service you use (e.g., Gmail, Yahoo), these emails may be filtered to a promotion, spam, or junk folder. To try and avoid that from happening, add the staff and their email addresses to your address book. If you find an email in one of these other folders, you should be able to select the email and label it to "never send to spam."

## Synod Publications

The Weekly Update: This email is sent out every Tuesday morning to all Rostered Ministers, lay leadership in our congregations, and anyone who signs up to receive the update.

The Synod Snapshot: This is sent to all Rostered Ministers on each month's first and third Wednesday.

Do Justice: This is sent out on the second and fourth Thursday of each month to all Rostered Ministers and anyone who signs up to receive it.

The Virginia Lutheran: This is sent at the beginning of the month to all Rostered Ministers, lay leadership in our congregations, and anyone who signs up to receive the update.

## Directories

The Virginia Synod has some helpful directories for your reference. These can be found at [vasynod.org/about/directories](http://vasynod.org/about/directories). The Rostered Minister Directory and Synod Directory are living documents which mean as information is shared with the Office of the Bishop it is updated in the directory.

**Facebook Group:** If you are on Facebook we have a [Virginia Synod Rostered Minister](https://www.facebook.com/VirginiaSynodRosteredMinister) group you may request to join. Reminders of upcoming events, resources and other valuable information is shared here.
