

Tomorrow's Church: How Congregations and our Neighbors are Changing

Dr. Nathaniel Porter, Social Science Data Consultant, Virginia Tech
Our Saviour, Christiansburg | nporter@oslc-cburg.org

Our congregations are changing, but so is the world around us! Learn and discuss overall trends in US and Virginia religion: who's staying, leaving, and joining, and what the growth of religious "Nones" means. You'll also learn how to easily create and interpret custom reports for your congregation's area with religious and demographic statistics.

Key Trends and Why they Matter to Congregations

- Overall membership
- Nones and somes
- Aging (society and church)
- Migration (within the US and across borders)
- Disability, mental health and neurodivergence
